DESCRIPTION

A three-phase induction motor has a simple design, inherently high starting torque and high efficiency. Such motors are applied in industry for many applications. A three-phase motor is more compact and less costly than a single-phase motor of the same voltage class and rating and single-phase AC motors above 10 HP (7.5 kW) are uncommon. Three-phase motors also vibrate less and hence last longer than single-phase motors of the same power used under the same conditions.

Why Choose Us ?

PAYMENT POLICY

- PayPal
- Bank Deposit
- Pay on pick up at our counter

SHIPPING POLICY

Shipping and Handing term and condition:

1. Our orders are usually shipped within 24 business hours after payment received unless there are problems with the order. If this is the case we will contact you via your eBay email address or telephone number. So please double check with the number you have left on eBay as this is mandatory for courier shipping purpose.

2. Orders are normally processed each working day not including weekends. Usually if your payment is not received after 2:00 P.M. or on the weekend, it is processed on the next business day.

RETURNS POLICY

1- All our products come with 1 year warranty, unless stated otherwise. Stated clearly on the tax invoice.

2- All warranty/return items must accompany by a return approval (RA) note. Please contact us via email, or telephone to obtain a return approval. We do this to minimize errors and misunderstanding.

3- Any item returned without an RA note will not be looked at or contact and would eventually be discarded. This will cause delay to your warranty claim.

4. We will not be responsible for any loss incurred by the buyer sending an unmarked item to our store. The Buyer will need to have all costs in processing the returned item.
